

Using freshly picked vegetables

Harvest restaurant "TRETATTE" offers dishes that use plenty of fresh vegetables just picked at Ezura Farm. Even in winter when vegetables cannot be harvested, we harvest and store them in autumn to provide vegetables with increased umami.

In the harvesting experience, you can also serve a meal with the vegetables you have picked yourself.

Use local ingredients

For example, natural eggs from the neighboring "Hiraoka Farm", free-range milk from the neighboring "Sato Ranch", meat products from "Hakuyosha", etc... We proudly offer delicious, fresh ingredients purchased directly from local producers.

restaurant*

The restaurant is located on the farm of Ezura Farm, next to the farm guest house. The view from the large windows is only the vast fields and nature.

You may be able to see the nature of the four seasons, the crops growing in the fields, the Ezura Farm members doing farm work, and sometimes even wild animals.
